

Matt Muspratt  
Porirua City Council

Dear Matt

**Re: Network Utilities Plan Change**

The Pauatahanui Residents Association would like to thank you for the opportunity to be represented on the Network Utilities working group and to comment on the draft Network Utilities Plan Change.

PRA is supportive of the draft Plan Change as circulated by Gina Sweetman on 30 January 2013.

PRA believes that the Plan Change as proposed

- enables PCC to meet its obligations under the National Policy Statement on Electricity Transmission by defining the Electricity Transmission Yard and Electricity Transmission Corridor
- alerts landowners and PCC officers to proposed activities requiring compliance with NZECP:34
- does not seek to replace the existing status of activities within the rural zone with additional or unnecessary constraints or consent costs on landowners

PRA would like to continue to be involved and would be pleased to attend any further meetings and/or hearings on this matter.

Yours sincerely

Diane Strugnell  
On behalf of Pauatahanui Residents Association
